Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Canton School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The Canton Public Schools work diligently to engage and support each and every learner, their family/guardians, and our community in order to ensure the performance and growth of our students. Our district has worked diligently to identify areas of excellence and opportunity in order to improve our regular and special education programs.

Under the leadership of our new Director of Pupil Personnel Services, the district has restructured multiple services across its continuum. Increase reading and behavioral supports have been implemented and a new program has been developed to support student regulation. The department has also completed a review of their practices and continues to restructure and realign, as necessary, to support the needs of the students across the district. Work within the department operates in alignments with federal requirements established within the Individuals with Disabilities Education Act (IDEA). Our district provides an array of specialized services to support students academically, socially, emotionally, and behaviorally in a least restrictive educational environment. Families and students are guided and supported throughout the educational process.

The district continuously reflects on communication practices, providing newsletters, video productions, community forums, increased social media, and a renewed website. Of particular note are the Community Conversations held throughout the year, as well as our Community Workshop series, held with area professionals in youth services to support our community, families, and guardians. Additionally, as available and appropriate, parents and the community are invited in to the schools to partner in active learning.

As a district, Canton focuses on ensuring students are well known and well supported. Improvements in student data systems, universal screening, and standards based assessment have provided increasingly clear data used to support the academic, attendance, and behavioral needs of students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Canton Public Schools has engaged in work in achieving equity in our schools and community. The goal of this work is to build capacity in equity based concepts and actions with administrators, teachers, staff, students, and the community. Specific activities include: -The development and adoptions of an equity definition. -Partnership with CREC to provide district-wide equity training for all staff. -Community Gatherings held with the broader community to discuss equity. -Employment of a coordinator to work with students who are new to our district and to work with our students/families from Hartford.

-Staff participating in school equity councils. -All schools implement school culture and climate models in support of positive behaviors and restorative practices.

-Unified Sports is an active sport in our K-12 programming.

-Create classroom libraries with expanded "window, mirrors, and doors" to support cultural awareness at all grade levels.

-The administration of school climate surveys to staff, students, and families as well as an equity survey for students in grades 7-12.

-The development of a Vision of the Graduate. -Curriculum revisions include alignment with the equity statement and vision of the graduate. -The hiring of a Director of Student and Family Engagement to provide direct leadership with school systems related to climate, culture, belonging, and performance. This position also works closely with the area RESC and Open Choice program.

-The district continues to explore how to more equitably provide it education to reach and support each and every student.

Equitable Allocation of Resources among District Schools

The Town of Canton and the Canton Board of Education work together to develop a budget that is fiscally responsible that will move the school district forward while maintaining the obligation to meet the individual needs of the students in the Canton Public Schools. The budget process begins with all administrators presenting their budgets to the Central Office Team and then to the Canton Board of Education. The 2022-2023 budget was developed with the following priorities in mind: Fund contractual obligations while staffing the school district at a level to promote high levels of student achievement. Ensure that all class sizes remain within the Board of Education's class size policy. Meet the individual needs of students receiving special education and related services. Support the academic and social emotional needs of our students in the recovery from the pandemic.

Budgets are developed with funding that is necessary to educate our students in alignment with our vision and mission for district.

Support of the implementation of the district's Thrive program for student support.
