District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Equitable Allocation of Resources among District Schools

Windsor Locks Public Schools demonstrates equitable Allocation of Resources through the following process which continued in the 22-23 school year. Individual schools provide input into the budget process and the requests are gathered and aligned with our mission, vision and goals. Each building administrator then completes a cost center request for funding which is review by the Central Office leadership team. The information is then worked through various levels with families and our Board of Education before a finalized presentation to our town Board of Finance.
