Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Amistad Academy is a part of the Achievement First (AF) network of schools, and as such, benefits from the latest research, training, and support in providing differentiated instruction to students with special needs or requiring additional support. Team Special Services works closely with our school's special services leaders to design programs and interventions tailored to our school population. AF's curriculum team works with our special education team around differentiating best practices to serve all scholars. During the special education cohort meetings, special education leaders also share resources and collaborate on ways to make the curriculum more accessible.

We ground ourselves in our Special Services Playbook, a manual for school leaders, special services leaders, and teachers in identifying and addressing student needs. It provides tools for building an inclusive environment, ensuring that all scholars achieve academically and behaviorally at high levels. Co-teaching is a primary strategy utilized at Amistad to reach inclusiveness and a least restrictive environment. This approach allows teachers to collect more data, provide more feedback, and offer more targeted support in leading students to the same rigorous academic and behavioral outcomes. Amistad works with the New Haven district for the IEP process and uses the CT SEDS system. The Amistad team meets with the New Haven district team each month to collaborate on upcoming IEP meetings. At Amistad, families have a space to share and actively participate in their child's IEP meeting. Additionally, special education teachers engage with families during school events, progress report nights, and send weekly communication.

Maintaining high daily attendance and low chronic absenteeism rates are high priorities at Amistad. This work has become even more critical after COVID, as students were still missing school due to COVID illnesses and other pandemic-related reasons. Our principals set the vision for school attendance and student culture. Families are informed on our daily attendance goals and partner with us in getting their child to school every day. Our social workers help reduce attendance barriers by providing additional support as needed. School staff reach out to families to determine the reason for a student's absence, which is critical in unearthing the root causes. The attendance committee meets regularly to review attendance data, identify additional supports that students may need, and find ways to celebrate/incentivize strong attendance habits. Amistad Academy continues to focus on ensuring student safety and maintaining family engagement as core components of student attendance. Families receive frequent communication from teachers and school staff to engage in learning activities. Report card nights continue to be well attended. Amistad Academy makes efforts to involve families in the planning and leadership of school events. Teachers are accessible to parents in various forms of communication (email, phone, or text). School staff also utilize ParentSquare to communicate with families, ensuring that all families have access to the content. Senior Community outreach and student recruitment is led by a dedicated Senior Community Outreach Associate who coordinates efforts and explores partnerships with the community our school serves.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Amistad Academy's mission is to prepare every student to excel in college and career, deepen their knowledge of self and community, and lead lives of purpose. In partnership with our families and communities, we work to disrupt the legacy of inequity in education. We believe fulfilling this mission and reducing achievement gaps based on race and economic status, will reduce the isolation for our scholars. We aim for our schools to reflect the demographic composition of the neighborhoods we serve, and prepare our scholars to achieve academic success, and career and college readiness. The schools partner with the Achievement First's recruitment team to execute a comprehensive recruitment strategy consisting of direct outreach, Refer A Friend campaigns, information sessions, school-based open houses, presentations at local education agencies and community based organizations, neighborhood canvassing at nearby high-density housing and building locations, and geo-targeted mailings to reach families across the region. Our recruitment team leverages partnerships with local universities and organizations that support educators from diverse backgrounds. Notable partnerships include The National Fellowship for Black and Latino Male Educators and Profound Gentlemen, which help us intentionally diversify and support our candidate pool. We have designed and implemented training for all hiring managers to ensure our interview practices mitigate implicit bias, allowing all prospective staff to have an equitable interview process. Additionally, we advertise our career openings across diverse areas and websites to build brand awareness and attract candidates of all demographics and backgrounds. Preparation for the college experience begins in 9th grade with the Foundations of Leadership course, a 4-year program designed to help scholars navigate the more complex high school and post-secondary school world, with an emphasis on overcoming obstacles through effort. Each year culminates in scholars completing high stakes applications, preparing them for the college application process. High school scholars apply to and attend a variety of summer programs to prepare for the college experience and the diverse populations they will encounter when moving onto college.

Equitable Allocation of Resources among District Schools

Amistad Academy charter school district comprises 3 individual campuses. Decisions around resource allocation align with the district's strategic plan priorities and goals. Each school has a Director of Operations (DSO) who is responsible for non-instructional activities, including budgeting and resource acquisition. DSOs from each school across the Achievement First (AF) network meet regularly to standardize processes, procedures, and activities. The Amistad Board of Directors reviews and approves the annual budget and the financial reports at each of their meetings, including school-level detail with key comparable metrics. Financial reporting is centralized; AF's Chief Financial Officer ensures resources are allocated comparably throughout the network. Amistad Academy regularly reviews data and adjusts the resource allocation process to remain responsive to evolving student needs and maintain equity. This review may include input from school administrators, teachers, parents, and community stakeholders. Adjustments may be made based on changes in student demographics, academic performance, or other relevant factors to address the school's needs in line with the strategic plan.
