Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

East Granby Public Schools employs a continuous improvement cycle using student data to guide decision-making. Across the district, EGPS utilized standardized assessment, such as mClass DIBELS 8, SBAC, and PSATs, to identify student strengths and growth areas in reading/ELA. For mathematics, results were garnered from SBAC, i-Ready, ALEKS, PSATs, and departmental assessments to gauge students' levels of mastery. We have transitioned to the SAVVAS myView reading program for grades K-5 and SAVVAS myPerspectives for grades 6 & 7 to support instruction in the Science of Reading. Through the SRBI process, schools were able to determine which students needed additional support and pinpoint areas for growth. Instruction was designed, implemented and reviewed to ensure all students achieved success. Our school counseling team worked closely with administrators, teachers, and families to help students who struggled and provided dedicated support according to the students' needs. Teachers and staff participated in professional development and PLC teams across the district to further enhance their instructional strategies. Curriculum was reviewed and revised regularly to improve student outcomes. We utilized Vector Solutions training modules for teachers and paraprofessionals. Our attendance protocol included supports to ensure regular attendance and participation of students. Student Support Services focused on reducing the achievement gap of our most challenged learners by training additional staff in specialized reading strategies and extensive professional development (PD) to improve programming and outcomes for students. Collaborative models were established with general education teachers to support students within an inclusive and co-teaching environment. The district's collaborative model included PD opportunities for teachers and paraprofessionals that focus on reading strategies, assistive technology, autism, and workshops to empower parents. East Granby High School's Portrait of a Graduate embraces five important components which include: critical thinker, creative thinker, communicator, collaborator, and empowered citizen. The five "C's" are embedded in daily lessons across the district and student success is measured by department rubrics.

The East Granby schools continue to provide parents with opportunities to support their child at home. Information is disseminated using myriad formats, including, but not limited to, our district and school websites, social media platforms, parental advisory meetings, surveys, emails, newsletters, school orientations, parent conferences, and School Messenger. PowerSchool allows parents access to student grades and attendance data. Additionally, parents are invited to attend school events such as the Art Show, Family Math Night, Open Houses, Meet and Greets, Field Day, concerts, plays, and the Literary Club Café. EGPS collaborated with the FVHD to offer Parent/Guardian Resilient Family Sessions in the evening and youth mental health training.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The district is committed to the belief that equity, diversity and the social and emotional well-being of our students is paramount to their success. Our Climate and Culture Advisory Team continue the process to develop a continuous improvement plan designed to enhance climate and culture, including social emotional learning, equity, diversity, anti-bias and social justice. The plan includes three critical components: teaching and learning, community engagement, and student-centered opportunities for growth. Advisory group sessions provided students with opportunities to interact and focused on social emotional learning and use of mindfulness and self-resiliency curriculums. We participated in the Open Choice Program and the Choice Social and Academic Support Grant which helped us provide afterschool enrichment clubs that are open to all students. East Granby students have an option to participate in CREC's magnet school programs, Bloomfield or Suffield Vo-Ag Programs, Greater Hartford Academy of the Performing Arts, Asnuntuck Community College's Partnership Program, and Goodwin College's Manufacturing Program. We also partner with CREC for racial equality planning. World Language classes exposed students to music, food, and art and culture from around the world. Our ELL teacher worked with ELL students to develop their English skills and provide academic support. We celebrated heritage months and our music program explored multi-national genres. Students held fundraising events in conjunction with our local food pantry and national organizations to address poverty and hunger. Our teachers were dedicated to educating all of our students on the diversity of individuals and culture by highlighting their ethnically and racially diverse society through daily lessons, activities, and community projects. International field trips are planned and executed, providing students an opportunity to visit and immerse themselves in different cultures, learn the history, and participate in service learning projects abroad.

Equitable Allocation of Resources among District Schools

School priorities and instructional resources were identified and incorporated into each school's budget plan. The district's operating budget supported the educational program. Grant funding was applied to a portion of staffing needs, as well as initiatives and programs to increase student, school, and district performance and contributed to additional after school activities. Technology funding enhanced transformational learning for all students. Our 1:1 technology initiative connected each student with a Chromebook or iPad. The town of East Granby provided capital infrastructure funds to support five-year planning for technology, school safety, maintenance, and enhancements in all schools. Various grants were received and the funding was equitably dispersed throughout the district. The PTO supported our students and programs with funds for field trips and in-house activities. Educators carefully and purposefully planned and allocated money to ensure that all students received equal educational opportunities by insisting on deep rigor in all classes, provided layered interventions for all students, and ensured that all students had access to 21st century learning opportunities.
