Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

East Haven School District

Narratives

School District Improvement Plans and Parental Outreach Activities

East Haven Public Schools is committed to providing all students with opportunities and resources necessary to ensure consistent progress toward achieving our Vision of the Graduate. The attributes of our vision—responsible citizen, goal-directed and resilient individual, informed thinker, powerful and effective communicator, and resourceful problem solver—are the foundation of decision-making and efforts to improve programs and services for all students.

EHPS operationalizes our vision to help students prepare for life within and beyond the walls of our schools. Expansion of course offerings in middle and high school in manufacturing, culinary, and other CTE programs ensure opportunities for students to engage in career exploration and training. Inclusion practices, academic supports, and extracurricular activities provide exceptional learners opportunities to extend learning and expand relationships. The community has engaged in thoughtful revision of the special education life skills and transition academy programs, developing authentic opportunities to involve participants in the school community in purposeful ways, while addressing literacy, numeracy, and job skills.

EHPS recognizes that our families are integral to helping every student achieve the Vision of the Graduate. In an effort to strengthen this collaboration with families, East Haven has begun to migrate communication efforts to the Parent Square platform. Parent Square allows for immediate translation of messages to a family's first language of choice and allows recipients to share feedback, questions, and messages to the sender. Information may be received through SMS or email, allowing schools to reach families more effectively. Additionally, family literacy nights, FAFSA support and college planning nights, a Dual Enrollment Information Night, and an ESL Family Night were organized to invite families into our schools, provide resources, and solidify partnerships.

The EHPS Vision of the Graduate is grounded in the belief that a student's attendance is critical to their success. School data teams review attendance data and representatives participate in district-level meetings to share strategies and progress. Aggregate monitoring data is provided to schools monthly along with student-level data to support responsive intervention steps. These include a range of needs-based strategies including home visits, wrap-around services (i.e. relationship building, resource sharing, school-based health services, needs assessments), and policy-based motivational strategies (such as linking attendance to participation in extracurricular programs). In all schools, family engagement is an attendance priority with school personnel engaging in progress reviews with individual students and their families.

Creating further alignment with the vision, EHPS administrators, support staff and Central Office administrators conducted quarterly, personalized on-track meetings with every grade nine student. Meetings were guided by questions on topics including: attendance patterns, academic progress, transition to the high school environment, available supports, short and long term goal-setting, and full participation in the school community. District Student of the Month ceremonies, aligned to the attributes of the EHPS Vision of the Graduate, celebrate student progress and attendance achievement.

Efforts to Reduce Racial, Ethnic and Economic Isolation

East Haven Public Schools strives to foster a learning community where all students feel accepted, connected, and valued. EHPS takes a learning stance in listening to stakeholders within the community and helping students develop skills that are integral to fostering a just and inclusive learning environment that empowers all students. Core instruction across all grade levels incorporates tenets of social emotional learning through the use of Second Step in K-8 and advisory programming at the high school. These lessons help provide a foundation for collaboration, problem solving, and respecting the diversity of individuals' identities, background, language, abilities, and beliefs.

To further this work at the elementary level, EHPS has partnered with Visual Thinking Strategies (VTS) to expand training for all SEL coaches and School Social Workers in an effort to promote students' perspective taking and engagement in respectful discourse. At the secondary level, EHPS partnered with SERC to conduct focus groups with students and staff. The district commits to this emergent work in effort to better understand how our school learning communities can support student wellbeing and safety, across all populations. This partnership seeks to complement the work with the Anti-Defamation League in making the middle school a "No Place for Hate" community. Collectively, these efforts inform actionable steps towards fostering an inclusive learning environment.

EHPS is also committed to diversifying our staff. Through outreach, local partnerships, and co-teaching mentor programs, East Haven is working to recruit, support, and retain new staff members who reflect the diversity of the community that we serve. Additionally, all faculty participated in Safe Schools Climate professional development, and the ongoing curriculum review process examines current and future instructional resources through a lens of diversity, equity, and inclusion. Ultimately, East Haven Public Schools believes that it is the responsibility of all its educators to engage with stakeholders throughout the community in order to reflect on current practices and plan for continuous improvement so that the daily school experience is ever evolving to meet the needs of our diverse learners.

Equitable Allocation of Resources among District Schools

The East Haven Board of Education utilizes a budget process that is inclusive of diverse stakeholders and focused on the equitable allocation of resources. EHPS prioritizes expanding the impact and efficacy of staff to better serve our students, especially through intervention and enrichment opportunities that enhance the core learning experience. These strategic resourcing efforts are exemplified by the work with early literacy and sheltered instruction. East Haven has partnered with the HILL for Literacy to provide embedded professional learning and district-wide literacy data meetings to support educators' efforts to deliver differentiated small group instruction to all emerging readers. Additionally, as East Haven's multilingual learner population continues to grow, equitable resourcing has kept pace by expanding sheltered instruction to provide real time support in core classes and foster a learning community that supports academic risk taking and holistic development. In addition to district-funded initiatives, per capita allocations allow building principals to align their school improvement goals to address the individualized educational needs within their schools.
