Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

School District Improvement Plans and Parental Outreach Activities

The District Improvement Plan is based on the following two goals: 1. Demonstrate mastery of grade level standards in literacy, writing, numeracy, and technology as articulated by the common core standards.

2. Demonstrate and cultivate the characteristics of a well-rounded, productive member of an ever-changing world.

The second goal aims to address 21st century skills scholars need to be successful and focuses on problem solving, critical thinking, communicating and collaborating, empathy and caring, and social responsibility.

To help achieve the aforementioned goals, the Academy has identified specific theories of action with parent and community input that focus on fostering school, parent and community partnerships. The input provided by parents and community members is collected through regular virtual Meetings and parent association leadership meetings. Examples of these outreach opportunities that result in meaningful relationships include parent, community, and scholar participation in service learning experiences such as the Annual Pretty in Pink Ball for Kids, a partnership with the Maggie Gardener House designed to help cancer survivors and their families, monthly school activities such as the Back to School parent, scholar, and new scholar meetings, High School Transition Activities for scholars and their parents, academic achievement recognition ceremonies, Parent Education Series focusing on Curriculum, Common Core standards, Smarter Balance and Benchmark Assessment overviews, technology integration, parent conferences, and the use of Parent Square and PowerSchool information systems to communicate between home and school about student progress and achievement.

In addition to the previously mentioned examples of school, parent, and community partnership initiatives, parents are actively involved in student assistance team meetings and special education planning and placement team meetings to support the educational success of their scholar. The Academy works toward minimizing scholar truancy by regularly communicating with parents and following policy. As a learning community, we are committed to ensuring that we understand the unique needs of our scholars and continue to engage our adult service providers in professional development designed to support effective communication, interaction, and lesson design for our scholars. Additional professional development has included a focus on literacy specific to the Foundations phonics program, benchmark assessment system, Illustrative Math curriculum grades K-8, ongoing focus on promoting differentiated instruction and the development and implementation of targeted intervention supports as needed. Further emphasis continues to be placed on increasing inclusion practices and strategic co-planning between special and regular education teachers so that all of our scholars are achieving.

To further support community partnerships and scholar achievement, the Academy continues to support summer programming in partnership with Goodwin University, CT River Academy where the focus is on college, careers in manufacturing, STEM, coding, literacy, and preventing the "summer slide." Students from the Greater Hartford community and Jumoke Academy Scholars are involved in summer learning experiences that are provided.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Our efforts to reduce racial, ethnic and economic isolation during the last school year began with ensuring that the Academy recruited and attracted an applicant pool of diverse faculty and staff. The academy's faculty diversity is made up of representatives from African American, Caucasian, Hispanic, Asian, and Middle Eastern heritage. The focus on having a diverse staff representation has also resulted in our ability to also attract a diverse student population. The scholar population at the Academy is approximately .3% Alaskan Native, 6% Asian, 93% African American, 3% Caucasian, 5.0% Hispanic, and .6% unclassified. We continue to maintain strong relationships with local community organizations and promote the Academy regularly in area publications, social media through Facebook, Twitter, and on Instagram. Additionally, the Academy takes a grass roots approach to promoting its campuses and programs through its historically annual Heritage Gala. This event gives the Academy the opportunity to directly communicate with all stakeholders the opportunities for a quality education for all constituents and families who might consider enrolling their children for the upcoming school year. The Academy continues to see increases in its Spanish speaking population of scholars compared to previous years while also maintaining its numbers of other minority groups and scholars from low-income households.

It should be noted that the Academy is purposeful in its attempts to provide diverse experiences for scholars as evidenced by involving them in literacy partnerships with the local library in support of elementary school reading initiatives, and collaborative programs inclusive of Horizons at The Ethel Walker School in Simsbury, CT, college, career, and STEM enrichment at Goodwin University and the CT River Academy. Historically, Jumoke scholars have been involved in community-based musical performances and theatrical presentations supported by the Bushnell theater in Hartford, CT. In addition and historically, the Academy has hosted the All City Oratorical Contest that involves charter, independent, magnet, and Hartford public school students.

Equitable Allocation of Resources among District Schools

Allocation for instructional needs are based on student enrollment and staffing at each of our campuses. Building and district leadership meet to identify areas of need based on the district and building improvement plans. This process results in the preparation of school and department budget requests that are subject to review by district leadership. In addition to the approved allocated funds, discretionary funds are made available to building leadership to meet teacher and scholar educational and enrichment programming needs.

It should be noted that the Board of Directors reviews and approves a detailed budget for each fiscal school year.
