Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Lebanon School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The 2021-2022 school year was year three of a 5-year school improvement plan in Lebanon Public Schools (LPS). The District continued their efforts to implement the LPS Portrait of the Graduate initiative. Student "look fors" were created for each grade level to outline and explain how students can demonstrate each disposition in a developmentally appropriate way during their school experience. Additionally, staff began a deep dive into all areas of the curriculum to ensure we are providing guaranteed experiences for every learner to work towards proficiency in these dispositions.

LPS is a model of continuous improvement. To that end a small number of laser focused district goals were collaboratively developed to pursue excellence. Each building then created goals using student performance data that had a direct through line to the district goals. This connection gave continuity to our efforts. Our multi-tiered system of support for learners was redesigned in effort to provide targeted academic and behavioral interventions to accelerate learning. The iReady and NWEA platforms were utilized as our district academic diagnostic assessments and the Behavioral and Emotional Support Screen provided us with social emotional data to inform decision making. Data was regularly reviewed at school improvement meetings, and instruction and interventions were adjusted as such.

We are all in this together! To that end we worked hard this year to reintroduce families to our schools through constant communication and engagement in activities. Our district School Reopening Committee thoughtfully planned and shared the Safe Return to In-Person Instruction and Continuity of Services Plan which included a section specifically on mitigation measures that would be implemented during events/activities that parents and the community were invited to throughout the year.

The Superintendent and each building Principal sent monthly newsletters to all stakeholders. We also increased our presence on social media with the Superintendent and each school having an active Facebook page. The high school also developed an Instagram page and the Athletic Director utilized Twitter to promote our highly successful sports teams. The Thrillshare platform continues to be another vehicle to communicate important information on a daily basis to all our families and does so through the use of instant messages in text, email or voicemail. Communication from school to home was an indicator of success within this year's stakeholder feedback goal for our district.

We were excited to welcome families and community members back into our schools to enjoy events and activities involving our students. We reimaged our Open House events making them a more flexible and celebratory event to drum up excitement about being back to school. Parent-teacher conferences continued to be an important method of sharing information on student progress and working alongside parents to help promote continuous improvement for our learners. Our Music department further opened the doors to our families and community to attend events by displaying our students' talent during concerts and band performances.

Our schools continued to partner with the PTA, PTO and Booster Club to plan for and hold special events for our students, their families and the community at large.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Lebanon Public Schools, in an effort to increase and expand interactions among students of all backgrounds, provide our students with diverse experiences. Units of study include opportunities for students to learn about various cultures. Visits from parents and community members enhance the curriculum and give a unique perspective for students related to travel, nontraditional careers and family backgrounds. Field trips and numerous fine arts presentations reduce the isolation in Lebanon and promote learning about people of different origins. Economic isolation is addressed through our eighth grade participation in the Lebanon Middle School (LMS) "Job Shadow" & Lyman Memorial High School (LMHS) Career Day. Many professions are represented and students spend time with leaders in these fields. LMS continues to pair with an urban school as part of the Project O River Connections Program.

Lebanon Elementary School (LES) students are provided with assemblies, thematic instructional topics and literature that foster cultural understanding and enrich their understanding of the world around them. Fourth grade students participate in a leadership program with students from other area schools. The LMS and LMHS World Language Departments expose students to our national and foreign Hispanic culture. North American & European French cultures are also studied. LMHS participates in the CT Youth Forum which brings a diverse group of learners from across the state together. LMHS students participate in the Model UN, meeting with delegations from other countries. LMHS students have the opportunity to join other local high schools for co-op sports in swimming & diving, wrestling, football and hockey. This year we were able to expand the number of sending school districts to our Agricultural Science and Technology Education Program. Continued efforts to recruit students to our district are ongoing. Highlight videos of our programs along with personalized tours for potential students have been added as tools to draw families and students into our learning community. Additionally we have given surrounding towns the opportunity to use our sports fields to build relationships and give them an opportunity to feel what it might be like to be a part of Bleed Blue nation.

Equitable Allocation of Resources among District Schools

The Board of Education members and the administration strive to provide a quality education for all students. They advocate for funding that will provide a positive educational experience and prepare all students to be Career and College Ready. The Board of Education and administration are vested in improving student achievement and lobby for appropriate funding each year. We provide resources equitably across the district to improve teaching and learning. The goal is to always move the district in a positive direction and provide for the needs of all learners. To guide this work, the Board adopted a 5-year Strategic Plan for the 2019-2024 school years. The Board also implemented the Lebanon Public Schools Portrait of a Graduate in 2019-20. This document helps guide expectations for student learning across all grades.
