Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The Madison Board of Education approved the mission guiding the district's efforts to prepare all learners to make a unique, positive contribution in a complex, global society. Posted on the district website is the Madison Public Schools Vision for a 21st Century Education: efforts in the district are focused on a systemic approach to operationalizing this work. Student growth is not only valued by the work within content, but concurrently on developing ten targeted student outcomes in the areas of critical thinking, creative thinking, communication and collaboration, self-direction, and global thinking. This requires teaching and learning to reach beyond standardized test scores as the measure of progress to commit to work that will lead to the development of all learners in these five critical areas. The district systems are aligned to value and support the work we set out to accomplish: evaluation systems; budget priorities; building space; professional development; construction of curriculum and assessments are all built for a coherent approach to realization of the vision. The district continues to show strong accomplishments as indicated by state and/or national program recognitions for athletics, the arts, technology, and scholarships. Students and teachers are recognized leaders among peers. Teachers are recognized by contributions to their discipline while students are celebrated for achievements ranging from arts and athletics to student leadership and academic achievement. Madison Public Schools offers a trimester schedule in the high school that enables students to pursue passions as well as academic requirements. Daniel Hand High School Program of Studies includes Advanced Placement and dual enrollment courses from University of Connecticut (ECE credits), while electives live vivaciously in a broad range of content areas ranging from Biotechnology to Boat Building. Students have district issued Chromebooks. A Reader's Workshop approach gives students the ability to read material they find exciting and relevant while growing their understanding of literature. Reading approaches require students delve deeply into core text, engage in meaningful self-selection and book clubs. Supports in the form of academic interventions are identified through a variety of indicators. Other programs are developed to reduce youth aggression/bullying, substance abuse, safe school climates, and healthy choices. Madison has a range of services and supports and maintains a close working relationship with town and regional agencies. Board of Education meetings are televised. Public sessions are hosted for community topics of interest such as the district building projects, budgets, and social/emotional well-being. A mini-webinar series for parents helped to provide information to homes during the pandemic. Parents and guardians are continually kept informed of student progress through portals, conferences and reports of progress.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Madison Public Schools are committed to fostering the understanding of various racial, ethnic and economic groups in our society and world. Students are being prepared to learn, work and live as responsible, productive members of a diverse global society. School staff helps students understand attitudes and positive behaviors that give them skills to increase cultural competencies and learn in cross-cultural situations. Madison practices cultural competencies to integrate the patterns of behavior that include thoughts, communications, actions, customs, beliefs, values, and the institutions or racial, ethnic, religious and social groups. There are dedicated pages on the website to the district approach to developing strong social emotional learning. We have a district-wide committee of 40 people who examine district practices that address the needs of the whole child and responsiveness to living in a global society. Madison schools respect diversity, build capacity for cultural self-assessment, and are conscious of the dynamics inherent when cultures interact. To institutionalize cultural knowledge, staff members have developed adaptations to the service delivery of instruction reflecting an understanding of diversity between and within cultures. The district Diversity, Inclusion and Equity committee has teams examining teacher recruitment, professional development and curriculum efforts to support Global Thinking. In addition to special programs and speakers, there are teacher and student exchange programs, interscholastic programs, international travel opportunities and outreach programs. Educators incorporate learning activities to celebrate diversity in curriculum and instruction, as well as at school events. We require our students to engage in global issues, take multiple perspectives and develop citizenship. The curriculum is posted on the district webpage with each content areas unit overviews detailed. Madison Public Schools is a participating district in fifteen inter-district magnet schools and five inter-district projects designed to reduce racial, ethnic and economic isolation.

Madison School District

Equitable Allocation of Resources among District Schools

The budget development process for Madison Public Schools begins with enrollment projections for each school as a basis for the per student allocation required to support student instruction, including textbooks and instructional supplies. An allocation formula is used so that elementary and middle schools have comparable resources while recognizing that the high school needs more costly equipment and specialized supplies. Schools benefit from a strong Board commitment to the continuous improvement of curriculum, instruction and assessment and is allocated comparable funding to support salaries, staff development, maintenance, utilities, etc. Analyses include audits, review of instructional versus non-instructional costs, study of budgeted versus actual expenditures, impact on facilities. Budgeting by school sites decentralizes decision-making, thus promoting school staff input and providing for expenditure choices to meet student needs. School-based budgets are reviewed ensuring they correspond with the requirements of statutes, educational goals, district policies and priorities, and collective bargaining agreements. All funding is distributed according to guidelines and regs.
