Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: 0

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

In spite of switching to Distance Learning in March, 2020, parent partnerships remained a priority. From September-February, Principal's Coffees offered parents information about general school topics. From March-June, the Principal conferred with individual parents virtually and attended virtual Town Forums. Interested parents were guest teachers, mystery readers, and served in many other roles throughout most of the year. School Improvement efforts took many forms, but teaching for engagement and impact in a virtual setting took center stage.

The Helen Keller Middle School staff recognizes the importance of school climate and data informed practices and strives to have all community members feel connected and supported. We have developed a robust data teaming model that includes regular collaboration by staff to review data and develop individualized support plans for students. This year we continued our work with the Wingman Program to support student voice, emotional safety, and the active inclusion of all students. All certified staff and students have been trained in Restorative Practices. Teachers maintain regular contact with parents via the PowerSchool parent portal, parent conferences, and email. Teams meet daily to increase communication around the issues of curriculum and students. Parents meetings are held with the child's team of teachers to discuss strategies for improving their child's learning. Principal coffees are an opportunity for parents to take part in informal discussions related to middle school student development and experiences. There are multiple opportunities for parent involvement in our school through our PTO. Our community relationship is further enhanced as we work in collaboration with outside community organizations to promote student involvement in community service such as a pen pal program with senior citizens, a Pennies for Patients fundraiser benefiting the

Efforts to Reduce Racial, Ethnic and Economic Isolation

Respecting cultural, racial, and economic differences remained an ongoing priority for our school. SSES Student Senators created a Student Diversity Club and recommended new books that featured complex characters of color. We continued to enhance classroom libraries to include diverse, culturally rich texts that reflect a genuine look at a global society, not just the students that surround them at Samuel Staples. We gave scholarships to low-income families, and we funded field trips, class t-shirts, and yearbook purchases for some students. As well, we continued to enjoy our partnership with Open Choice. We had 10 students enrolled from neighboring Bridgeport.

At Helen Keller Middle School we participate in Open Choice, a cooperative program designed to reduce racial, ethnic and economic isolation. Students from urban environments enroll as full-time students and complete elementary and middle school in Easton. Community service is a vital component of demonstrating the power of kindness. Our students continue to benefit from a sister-school partnership with the James J. Curiale School in Bridgeport, CT.

In December, students collect toys which they deliver to students at Curiale School. Additionally, 50 of our 8th graders serve as teacher assistants at Curiale School. This connection allows them an opportunity to connect with peers, participate in community service and provide academic support to younger elementary students. Additional leadership opportunities are

Equitable Allocation of Resources among District Schools

Allocation of resources is determined through an annual process of developing each school's operating budget in the district. Budgetary decisions are guided by the district's strategic commitment to academic excellence, character education, personalized learning and community involvement. All teachers provide input to their principals who work collaboratively with the Director of Finance that reflects each school's mission. The budget is proposed publicly at meetings conducted by the Board of Education, where members of the public are invited to provide input. Allocation of resources is discussed at monthly Board of Education meetings. Expenditures are balanced to sustain all academic and non-academic programs and determined in a manner that ensures full participation by members of the staff and full transparency to the community.
