Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

State		19.0		1.4

Number of students in 2019-20 qualified as truant under state statute: 34

Number of school-based arrests: Fewer than 6

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Indicator		Index/Rate	Target	State Average Index/Rate
Chronic Absenteeism	All Students	11.0%	<=5%	19.0%

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in the student group or the indicator is not applicable based on grades served.

Gap Indicators	Non-High Needs Rate ¹	High Needs Rate	Size of Gap	State Gap Mean +1 Stdev ²	Is Gap an Outlier? ²
Graduation Rate Gap	94.0%	93.9%	0.1%	9.8%	N

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

The Ellington Public Schools continued its ambitious and highly focused process to address improved student achievement through the continued implementation of both District and School Improvement Plans. For 2020-2021, the district continued to set targets using the Smarter Balanced Assessments in English Language Arts and Mathematics in grades 3-8, and for SAT performance at the high school. School goals were aligned with the District Improvement Plan. The district continued to use a revised vision, mission, and core beliefs focussed on three areas of focus: efficient operations, high quality instruction, and social emotional learning. These three focus areas have been widely shared with parents and the broader community. A key vehicle to communicate the work of the district has been the Board of Education's Communications Committee (which has been in existence for the past seven years). During the 2020-2021 school year (with guidance and directions from the Communications Committee) the district continued to increase efforts to share important district/school information using communication tools such as School Messenger, Twitter, and Facebook. This was especially important as we navigated the Pandemic. The district also created its second parent friendly annual Report and is updated on the website, which included comprehensive information on our health and safety mitigation strategies. The district's website was regularly updated to include the use of social media feeds, which provide real-time updates on what is happening in schools across the district as we navigated multiple learning models. Parent and teacher forums continued to meet and multi-media district communications described the work being done. Finally, in support of district and school improvement plans, the district continued its ECLIPSE program to meet the needs of students receiving transition services after leaving the high school. ECLIPSE has proven to be a key community-based setting for students to continue vocational and life skills development.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Over the past decade, Ellington has steadily increased the number of enrolled in its schools through the Hartford Open Choice Program. Due to the continued growth of our local enrollment, opportunities are limited for additional spaces for students, however the district takes pride in continued collaboration with Open Choice. In addition, a growing number of Ellington students participate in magnet school programs. The district focus on equitable opportunities has led to the development of many new professional learning opportunities for teachers and administrators. Ellington educators continued to participate in professional learning related to equity issues including study groups and book clubs related to this topic and has organized community events with CREC. This was directly related to the District Improvement Plan, which includes the following action steps: 1. Provide training for district leaders, administrators, teacher leaders and students related to implicit bias 2. Creation of a PDEC subcommittee to examine relationship between implicit bias and student behavior data. The district also expanded elementary classroom libraries to include more diverse text that are inclusive of all demographics. Additionally, the district continued to work with CREC to welcome families and provide teachers an opportunity to learn, reflect, and celebrate our daily work and interactions with students, colleagues and the community here in Ellington. EPS is also happy to report that our district will be continuing its agreement with CREC to participate in a Minority Teacher Recruitment program to diversify the teaching force (and we increased diversity on our administrative team). Finally, the district worked closely with CREC to ensure our students participating in Open Choice had access to technology. And the district partnered with local food banks and our food service vendor to ensure that ALL students in the district had access to breakfast and lunch in various learning models.

Equitable Allocation of Resources among District Schools

The 2020-21 school year saw a continued commitment to providing resources for all students across the district. Staffing has continued to focus on supporting student learning to increase access to instructional support in all schools. The district continued work to decentralize supports and resources to the schools to increase support for all students. In studying class sizes and enrollment trends across all schools, the district continued to implement a new Elementary School Enrollment Policy, which works to better ensure more equitable access to programming while balancing class sizes.

The district continues to monitor the implementation of this new policy and work to continuously improve equitable allocation of resources across the district. Finally, each school develops and maintains a list of students in need of support or intervention and the support provided; this process focuses the administration and staff to appropriately prioritize available resources based upon student need. Based on the analysis of student intervention data as well as overall student performance data the district reorganized the intervention model to more equitably distribute staffing resources.
