Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: 0

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Graduation Rate Gap	.	.	.	.	.

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

We are working to build an Antiracist Antibias Montessori school. We have a school improvement plan that focuses on three strategic objectives, creating strong adult community, supporting socially and emotionally well classrooms, and a vibrant learning environment. We are using the following Theory of Action to drive these objectives: If we use culturally responsive practices to build staff self awareness and accountability and frame our social emotional learning, and we strengthen academics with foundations skills with phonics instruction and math fluency and increased strategies for higher order thinking, we will fulfill our education debt and ensure success for all learners.

For our adult community, we have embedded Antibias Antiracist training into our work with our staff, with a focus on theory and practice to create brave spaces and work with Culturally Responsive Pedagogy. We are working hard to engage all our families in this work and in participation at the school. We have built webinars to share the work at school and to create videos of the classroom instruction and practice to better partner with families. Additionally, classrooms share monthly and weekly newsletters, as well as using Transparent Classroom to send pictures and lessons from the day. We plan with families each month in our School Planning and Management Team and quarterly with our Antibias Antiracist Collaborative. We are also partnering with families through conferences and bringing families (virtually) into our school for culture shares, to create a stronger partnership and to have families welcomed to our program as valued and with expertise.

For Social Emotional Learning, we are using ABAR Themes (Identity, Seeing and Celebrating Difference, Justice and Harm, and Activism) to frame our work with Casel skills for Social Emotional Learning and Conscious Discipline strategies, to create strong routines and procedures that foster relationships and safety. We have worked to build our staff's social emotional skills and then built these social emotional skills into our curriculum. This year, we have created student self assessments, so that our learners can guide the curriculum and share what they are learning.

For our Learning Environment, we have regular Professional Learning Communities focused on data and researched based interventions, including a Child Study process. We have implemented a strong phonics based program for all early readers and phonics based interventions for additional support. This year, we have focused our Professional Learning on focused on Culturally Responsive Practices, and we have regular sessions focused on the teaching of reading and writing. We have monthly lesson studies in Mathematics. We have also built in more time for collaborative planning and analysis of student data. For our work with children identified for special education, we work with our SPED team, including our social worker, to implement IEPs, hold PPTs, and provide modifications and accommodations. We work with families to create communication plans, where we tailor communication to the needs of children and to the best communication methods with families.

Efforts to Reduce Racial, Ethnic and Economic Isolation

We are a single school district. Therefore, our children are not isolated into different schools based on race or gender. Our school is committed to Anti-Bias and Anti-Racist Education. We have started a community ABAR team that includes leadership, families, and staff, and we use this team to plan for events, review curriculum ideas, and discuss professional learning for staff. We have hosted Undoing Racism training with our larger community and had staff and families attend this weekend long training.

We are focusing our work with staff and students on our ABAR Themes (Identity, Seeing and Celebrating Difference, Justice and Harm, and Activism). We use these themes to organize professional learning around Social Emotional Skills, literacy work with One Book One School (where we all read a book) and curriculum and lessons. We focus a Professional Learning each month on exploring the theme, discussing issues of race, gender, and identity that come up and considering how we improve our presentations to our children.

In our classrooms, we are working on using demographics, particularly race, in our breakdowns of disciplinary and academic data and using this data to review and set goals as a school. We are taking time to coach and provide feedback around how demographics and how we improve our practice to meet the needs of all our learners. We are working on Culturally Responsive Pedagogy and strategies to support our learners.

Equitable Allocation of Resources among District Schools

We are single school district. We work to ensure that our learners have the resources they need at our school
