Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: 0

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Graduation Rate Gap	.	.	.	.	.

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

Essex Elementary School continues to focus on our mission to ensure that all students are achieving at high levels. Innovative, exemplary, and research-based programs, coupled with professional development, focused and aligned resources, and public participation in planning, are critical factors for our continuous growth. The School Improvement Plan for 2020-21 provided the focus for our staff in developing goals in the area of Social Emotional Learning. The School Improvement Committee met to analyze assessment data to determine strengths and areas of concern. All certified staff developed goals directly aligned with school goals. Each goal included instructional strategies and progress monitoring strategies to measure student growth and achievement throughout the year. Efforts are coordinated to provide seamless instruction between all professionals in the building for a continuum of instructional support for student growth. The Principal updates the public on progress being made on our goals. An early intervention process, SRBI, supports teacher and specialist collaboration for effective use of instructional resources and to monitor student progress. A core team, including reading specialists, math coach, support staff and administration, meet weekly to actively identify strategies to meet the needs of identified learners and progress monitor their interventions. Students with attendance issues are monitored through the SRBI process. Students in need of special education services are supported through an inclusion and co-teaching model. Additional behavior supports and other research-based interventions are also provided for students with specialized educational needs.

Parents and community members are important partners in our school. Parents are part of the Social Development Core Team, EES Foundation and the PTO. Professional staff support families in a variety of ways. All families receive an electronic student handbook listing and describing important policies and procedures for the school. A Curriculum Night is held for families each year where teachers share their grade level curriculum to foster a strong home-school partnership. Parent-Teacher conferences are held to inform parents of their child's academic progress, twice per year. The EES Stakeholder Goal embraced by all staff provided opportunities and support to partner with families and strengthen the home-school connections. Each month a multi-page school newsletter is sent home to parents and each week an email "blast" is sent home. Teachers post homework and other information on their webpages, Google Classrooms and use phone and email communication to keep families informed of their child's educational program. Board of Education meeting minutes, District Goals, Mission Statement, Core Beliefs, Strategic Goals and Action Statements, Board Policies and a calendar of events are also posted and updated on the district and school website.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Essex Elementary School continues its work to reduce its relative racial, ethnic and economic isolation. The PTO provides a strong cultural arts program for K-6 students. The Cultural Arts program focuses content on the visiting performers by exposing students to a variety of cultures and traditions through dance, music, puppetry and storytelling. In various performances throughout the year, performers represented different cultures. The EES Foundation typically sponsors the World Cultures program for students in grade 2 with guests from Haiti, India and China who share their culture's music, art, food and historical activities. EES provides a weekly experience in Spanish for students in grades three-six (FLES-Foreign Language in the Elementary School) in which students develop their vocabulary and conversational skills, as well as learn about the traditions and current practices of Spanish-speaking cultures around the world. Students in grades one and two also enjoy Spanish lessons by our certified Spanish teacher. Our Social Development Program promotes a school culture, climate, and curriculum that fosters social, emotional, and behavioral development and wellness of students. A major focus of the program and curriculum is to develop students' tolerance for others, to regulate their own emotions, and to celebrate differences among all people. Our Book of the Month program embeds our core values into the general curriculum in each classroom as part of our Social Development Program, school wide.

Equitable Allocation of Resources among District Schools

The Essex town and school budget allocates resources to ensure equity and address needs each year, primarily during the budget process. The budget development process for Essex Elementary School ensures equitable allocation of resources based on student needs across the school. School and central office administrators develop a proposed budget for the school collaboratively. Specifically, the process begins with a student enrollment projection to determine instructional needs to support student instruction, including but not limited to, staffing, textbooks, instructional supplies, and library media supplies. Analyses of expenditures from the previous school year are conducted. The analyses include a review of instructional versus non-instructional costs, the study of budgeted vs. actual expenditures, impact on facilities, etc. The budget is reviewed to ensure that it corresponds with requirements of statutes, educational goals, district policies, and collective bargaining agreements. The school budgets are combined to develop a budget that is presented to the citizens of the town for approval.
