Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Killingly Public Schools are guided by the following core values: Positive Relationships Matter, Adult and Student Empowerment Matters, Clear and High Expectations Matter, Continuous Improvement Matters, Shared Responsibility Matters, and Focused Collaboration Matters.

This school year, our focus is on engaging the whole child. Engagement begins with regular school attendance. To that end, we have implemented the LEAP program. We have also hired a District Attendance Coordinator and Director of Mental Health, Student Wellness, and Family Engagement. Over the past summer, we conducted over 60 home visits. We have instituted Community Health Resources to provide mental health support in our high school and middle school, as well as filling almost all counseling and social work positions.

Inside our classrooms, we emphasize cognitive engagement, or in other words, deep thinking. Our teachers are all working toward the same SMART goal in this area and are using peer observation as a mechanism for learning and growth. We have continued with this goal for two years, recognizing that creating a shared understanding of high-quality instruction takes time to cultivate.

Our schools continuously engage in activities and initiatives to involve parents in their students' education. Each school hosts evening events such as Family Nights, open houses, student-led conferences, and Recognition Nights. Three of our five schools have School Governance Councils where families play an active role in planning and improving school programs. Additionally, schools engage with families through electronic means, including webpages, email, text messaging, social media, and automated phone services.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Killingly incorporates many programs focused on building a community where all students feel safe and respected. These programs include club activities at Killingly High School, Killingly Intermediate School, Killingly Memorial School, and Killingly Central School, all designed to support inclusiveness. A partnership has been established between Killingly High School and the Anti-Defamation League to provide community learning through the "Names Can Really Hurt Us" program and the "No Place for Hate" program. The district is committed to the RULER programs in grades 2-12 and the PYRAMID program in grades PK-1. Killingly has also participated in Rachel's Challenge and the Sandy Hook Promise.

Interested students from Killingly Intermediate School participate in a unique one-on-one multicultural mentoring program called Kids & UConn Bridging Education (KUBE). The program's goals are to reduce racial, ethnic, and economic isolation and to help students achieve academic success in science, writing, and 21st-century skills. The UConn students include two program coordinators, ten group leaders, and approximately 75 mentors who meet monthly with the 75 middle school students in Storrs.

Equitable Allocation of Resources among District Schools

Killingly Public Schools allocate resources to ensure equitable allocation and address needs each year. Annually, during the budget process, our building principal(s) and program directors work with staff and school site teams to create a financial plan for the following year. Each department articulates their specific needs for additional instructional and equipment supplies. As part of this process, principals and directors present their total budget to the business office and the Superintendent of Schools. Also, as part of the budget development process, "decision packages" representing requests for new staff, programs, and/or equipment may be submitted to the Superintendent for review. Decision packages are compiled and presented to the entire administrative team to be prioritized before they are sent to the Fiscal Subcommittee of the Killingly Board of Education.
