Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Litchfield School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Litchfield Public Schools continue to show solid student performance in our benchmark assessments and on state testing. By utilizing a district-wide approach to data driven instruction, all students regardless of performance level are provided with differentiated instruction intended to yield the highest levels of academic growth. At the high school level, the commendable SAT and AP scores, in conjunction with the positive persistence data for both 2-year and 4-year college attendees, speak to excellence in programming.

In the area of special education, Litchfield continues to educate all students in the least restrictive environment. An added focus is on the encouragement of our students with disabilities to participate not only in regular classes but in appropriate school sponsored extracurricular activities. The involvement of families and adult students in the development of meaningful IEP objectives and transition activities will continue to be a focus area. Emphasis is placed on the formulation of program modifications, adaptations, and instructional strategies so the completed IEPs are meaningful to the parents and regular education.

Litchfield continues to support its preschool program, offering more seats to 3 and 4-year-old community peers, and strengthening the overall transition to kindergarten.

The Litchfield school system recognizes that attendance is a critical factor in a student's academic and social-emotional success. Weekly attendance meetings are conducted to evaluate the need for intervention. Strategies to address attendance issues include outreach to parents and guardians, referrals to community resources, and assessment of the social, emotional, physical, and learning needs. Additionally, Litchfield Public Schools continues to refer students to Special Education, 504 and/or Student Intervention Team. Staff conduct home visits, coordinate with the physician and other community providers, and provide regular check in's with a mental health team staff member.

Engaging families in student learning is of high importance throughout the school district. School administrators regularly offer parent advisory meetings and create multiple opportunities for parents to volunteer in the buildings and in classrooms. Additionally, parents and staff are encouraged to serve on various committees (such as safety, climate, and school improvement).

To build capacity of the staff to partner effectively with families, the district upgraded the district website, electronic communication tools, and launched a digital app available for download on apple and android devices. These upgrades provide families with timely information.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Litchfield Public Schools continue to expand learning opportunities that reduce racial, ethnic, and economic isolation and design programming to meet the needs of all learners. Over 100 elementary and middle school students participate in a full day summer program that runs for four weeks in the month of July. Students in this program engage in academic lessons with certified teachers as well as participate in several rotations centered around social-emotional learning led by a school social worker and school psychologist. Enrichment activities include robotics, art, team sports, music, physical activity, agriculture science, and culinary arts. This program employs over 15 high school students as youth counselors to provide them with relevant work experience while also enriching the lives of the younger students.

Litchfield High School's "Peer Educators" contribute to understanding teenage issues. Prominent among the issues they address are acceptance of differences and diversity. Programs, such as this, provide opportunities for LHS students to interact with students of diverse cultural, racial, and economic backgrounds.

Litchfield High School's Interact Service Club is sponsored by the Litchfield/Morris Rotary club with the goal of developing service projects that benefit people in our town and in our world.

Students from Litchfield High School enroll in the Greater Hartford Academy of the Arts, Oliver Wolcott Tech, and Wamogo along with students from numerous other districts.

Equitable Allocation of Resources among District Schools

The Litchfield Public School District equitably allocates resources among all the schools in the system. Programs, supplies, and services are provided to students in each school in a fair and uniform manner appropriate to the learning and developmental needs of students at the elementary, intermediate, middle, and high school levels.

In addition to instructional and other resources, the district maintains a focus on maintenance and custodial services to ensure that all students in the district are educated in school facilities that are appropriate to the educational programs offered and that are safe, healthy, and pleasant.

The allocation of resources within the district is reviewed annually during the budget development process. The school administration and the Board of Education evaluate the needs of the district and each school to address all educational needs.
