Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Madison School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The Madison Public Schools mission is to prepare all learners to make a unique, positive contribution in a complex, global society. The district's vision for a 21st Century Education includes efforts in the district that are focused on a systemic approach to operationalizing this work. Student growth is not only valued by the work within content, but concurrently on developing ten targeted student outcomes in the areas of critical thinking, creative thinking, communication and collaboration, self-direction, and global thinking. The district systems are aligned to value and support the work we set out to accomplish: evaluation systems; budget priorities; building space; professional development; construction of curriculum and assessments are all built for a coherent approach to realization of the vision. The district continues to show strong accomplishments as indicated by state and/or national programs, as well as student and teacher recognitions for academics, athletics, the arts, technology, and scholarships. In 2023-2024, Madison Public Schools was the first district in Connecticut to have every school cited as a School of Distinction for highest performance (top 10% in the state). Madison Public Schools offers a trimester schedule in the high school that enables students to pursue passions as well as academic requirements. Daniel Hand High School Program of Studies includes Advanced Placement and dual enrollment courses from University of Connecticut (ECE credits), while electives live vivaciously in a broad range of content areas ranging from Biotechnology to Boat Building. A workshop approach gives students the ability to read material they find exciting and relevant while growing their understanding of literature. Reading approaches require students to delve deep into core text, engage in meaningful self-selection and book clubs. Children receive direct instruction in phonics, phonemic awareness, fluency, vocabulary and comprehension strategies. Supports in the form of academic and social/emotional interventions are identified through a variety of indicators. The Wellness Curriculum is developed to reduce youth aggression/bullying, substance abuse, build safe school climates, and make healthy choices. Madison has a range of services and supports and maintains a close working relationship with town and regional agencies. Board of Education meetings are televised. Public sessions are hosted for community topics of interest such as the district building projects, budgets, and social/emotional well-being. Parents and guardians are continually kept informed of student progress through portals, conferences and reports of progress. Madison's curriculum on its website has drawn attention from national and international interest and has been cited as an example of communication.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Madison Public Schools are committed to fostering the understanding of various racial, ethnic and economic groups in our society and world. Students are being prepared to learn, work and live as responsible, productive members of a diverse global society. School staff helps students understand attitudes and positive behaviors that give them skills to increase cultural competencies and learn in cross-cultural situations. Madison practices cultural competencies to integrate the patterns of behavior that include thoughts, communications, actions, customs, beliefs, values, and the institutions or racial, ethnic, religious and social groups. The Profile of a Graduate contains very specific skills associated with these efforts including: self-awareness; decision making; citizenship and alternate perspectives. We have a district-wide committee of 40 people who examine district practices that address the needs of the whole child and responsiveness to living in a global society. Madison schools respect diversity, build capacity for cultural self-assessment, and are conscious of the dynamics inherent when cultures interact. To institutionalize cultural knowledge, staff members have developed adaptations to the service delivery of instruction reflecting an understanding of diversity between and within cultures. The district Diversity, Inclusion and Equity committee has teams examining teacher recruitment, professional development and curriculum efforts to support Global Thinking. In addition to special programs and speakers, there are teacher and student exchange programs, interscholastic programs, international travel opportunities and outreach programs. Educators incorporate learning activities to celebrate diversity in curriculum and instruction, as well as at school events. Madison Public Schools is a participating district in fifteen inter-district magnet schools and five inter-district projects designed to reduce racial, ethnic and economic isolation.

Madison School District

Equitable Allocation of Resources among District Schools

The budget development process for Madison Public Schools begins with enrollment projections by building as a basis for the per student allocation required to support student instruction, including textbooks and instructional supplies. An allocation formula is used so that elementary and middle schools have comparable resources while recognizing that the high school needs more costly equipment and specialized supplies. Schools benefit from a strong Board commitment to the continuous improvement of curriculum, instruction and assessment and are allocated comparable funding to support salaries, staff development, maintenance, utilities, etc. Analyses include audits, review of instructional versus non-instructional costs, study of budgeted versus actual expenditures, impact on facilities. Budgeting by school sites decentralizes decision-making, thus promoting school staff input and providing for expenditure choices to meet student needs. School-based budgets are reviewed ensuring they correspond with the requirements of statutes, educational goals, district policies and priorities, and collective bargaining agreements. All funding is distributed according to guidelines and regs.
